

Institutional/Education

Pointe General Contractors is a leader in building educational facilities and institutional construction. We pride ourselves in our **knowledge** and **experience** of the intricacies involved in institutional building construction and our goal is to help our institutional customers achieve their long-term strategic business plans. We measure our success in high-quality, safe job site performance and in finding new ways to create value beyond customer expectations.

Establishing open lines of **communication** are essential in our business and we take teamwork very seriously. Combining innovative workflow methods and effective communication tools, we help our institutional clients to stay abreast of every stage of their building project's development.
