

Res Restaurants

Pointe General Contractors offers a broad range of experience to the food service industry. Whether you need design/build, new construction or remodeling services, **we understand** the specific regulatory, franchise and equipment needs for your restaurant, bar or coffee shop.

We will provide a **turn-key package** that will take you from concept to completion, keeping your schedule in sync with bringing customers through the door.

We realize the building codes for the food service industry have become much more intense over the past several years. **Our team** will be there every step of the way to build your project to meet health, building, fire and handicap access specifications while staying **on time and within budget**.
